

Kuldeep Singh

Forward Deployed Engineer

Jaipur, Rajasthan, India | kuldeepsingh31216@gmail.com | [linkedin.com/in/kuldeep-singh3121](https://www.linkedin.com/in/kuldeep-singh3121) | github.com/kuldeepsingh3121

PROFESSIONAL SUMMARY

Forward Deployed Engineer at UnifyApps who works directly with enterprise customers to turn business requirements into production-ready agentic AI workflows, integrations and automations. Background in Computer Science (AI & ML) with hands-on experience in Python, JavaScript and full-stack development. Comfortable owning the full loop from discovery and solution design to build, deployment and iteration, with clear communication across technical and business stakeholders.

EXPERIENCE

Forward Deployed Engineer

May 2026 – Present

UnifyApps

- Work embedded with enterprise customers to map their processes and systems and define solution scope and success criteria.
- Design and build agentic AI workflows, API integrations and business automations on the UnifyApps platform, end to end.
- Take solutions from prototype to production, then monitor, iterate and support them after go-live.
- Relay field insights and customer feedback to the product and engineering teams to shape the roadmap.
- Delivered multiple customer projects across enterprise use cases (details confidential).

Trainee, Agentic AI

May 2025 – June 2025

LinuxWorld Informatics Pvt Ltd, Jaipur

- Gained hands-on experience with agentic AI systems and intelligent automation workflows.
- Built and experimented with AI tools and autonomous agents on real-world use cases.

PROJECTS

risen: Business Website with AI Estimate Assistant

risen.business

- Built a complete, dependency-free marketing website for a technology services business, driven by a single config file.
- Developed an on-site assistant that guides visitors through idea, estimate and bug-fix flows and hands a summary to the enquiry form, with an optional AI backend and automatic offline fallback.
- Wired enquiries into Google Sheets via Google Apps Script with email alerts and Drive uploads; added SEO (JSON-LD, Open Graph) and accessibility features.

HTML, CSS, JavaScript, Google Apps Script, Google Sheets

Globe Trotter: AI Travel Assistant

globetrotter.online

- Built and deployed an NLP-based assistant that understands natural-language travel queries and returns personalised recommendations through a real-time web interface.

Python, NLP, JavaScript

Personal Portfolio

github.com/kuldeepsingh3121/portfolio

- Designed and built a responsive, data-driven portfolio deployed on Netlify, showcasing experience, projects and certifications.

HTML, CSS, JavaScript, Netlify

TECHNICAL SKILLS

AI & Automation: Agentic AI, LLM workflows, Prompt engineering, NLP, Machine Learning, Workflow automation

Integration: UnifyApps, REST APIs, Webhooks, JSON data mapping, Google Apps Script

Languages & Web: Python, JavaScript, HTML5, CSS3, React

Data & Tools: MongoDB, SQL / DBMS, Git, GitHub, Jupyter Notebook, VS Code, Netlify

Customer-facing: Requirement discovery, Solution design, Technical demos, Stakeholder communication, Documentation

EDUCATION

B.Tech in Computer Science (AI & ML)

Sept 2023 – May 2027

Jodhpur Institute of Engineering and Technology (JIET), Jodhpur · CGPA: 7.03

Relevant coursework: Machine Learning, Deep Learning, NLP, Data Mining, Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks
